

School Goals

2025-2026

1.

Our school wants to make sure that all the teaching is really good, so everyone can learn their best. We also want to make sure marking, feedback and assessments are fair and helpful, so children know how to get better and keep making progress.

We always know what we are learning and what success looks like.

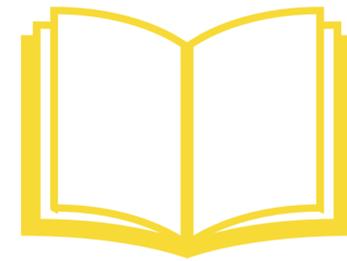

We use our classroom to help us learn and find what we need to work on our own.

We rise to challenges.

We listen to and act on feedback to improve our work and keep making progress.

2.

We want everyone in our school to get even better at reading – so you can read smoothly, understand what you are reading, and enjoy books for life.

Our Group Guided Reading lessons help us make good progress.

We answer interesting questions that help us understand and think about our reading.

If reading is tricky, we get extra support to help us improve and if we are really confident readers we get extra challenges.

3.

We want everyone to come to school as much as they can, because being here every day helps you learn, make friends and do your best. If anyone finds it hard to come to school, we will work together with you and your family to help.

We try to come to school every day so we can learn. If coming to school is tricky, we have a plan to help us come as often as we can.

Our attendance is checked every week so we can have help quickly if needed and our families are offered support.

We are working together to get our school attendance at 92% or higher.

4.

Our school is always looking at how we can get better. We check what is going well and what we can improve, so that teaching is always great, children learn lots, and everyone can see how hard we are working to make our school the best it can be.

We regularly review how the school is doing and plan improvements.

We look at our work, lessons and feedback to make the best decisions.

The Governors help our Teachers and Leaders understand what we do well and what we want to improve.

Parents and pupils are more confident and happy with our school.
